

LIFT SYSTEMS

PALLETIZERS/DEPALLETIZERS

Allows For Precise Handling Of Multiple Steel Parts

Custom designed to increase production and reduce product damage, IMI's Magnetic Palletizers/Depalletizers provide a safe and efficient method of transferring items to or from pallets, boxes or cartons. The powerful permanent magnetic heads securely transfer products from accumulators to shipping containers without the need for additional holding devices.

Typically equipped with pneumatic releases, Palletizers/ Depalletizers are ideal for automated processes such as full or empty food and beverage cans, brake drums and rotors, jars with steel lids, empty paint cans, composite cans, batteries and more!

Benefits:

- » Reliability of a permanent magnet with the ON/OFF capabilities of an electromagnet
- » Increased production for palletizing or depalletizing steel items
- » Reduced repetitive labor
- » Versatility in manual or automated applications, including automated sorting and counting of products

Key Markets

Deep Draw Fabrication, Oil & Air Filter Manufacturing, Lid Stamping
